AN ELEPHANT "ON STRIKE."-It is lucky there are no trades' unions among elephants, for an elephant "on strike" is as destructive as a Sheffield unionist. An elephant employed by the Government of India in hauling teak logs for the Forest Department, in the Anamallay forest, lately brought about a suspension of operations for above a fortnight. He began by knocking down his keeper, but luckily did not kill him. He then made for the huts of the keepers, whose wives and families were driven into the jungle. He displayed his skill in pulling down the huts, smashed up the carts and implements and destroyed a quantity of provisions stored up for his brother elephants. After keeping the settlement in alarm for some fifteen days, he was shot in one of the legs, and then caught and chained.

words in behalf of public schools have made deep impressions, it is to be hoped, in many minds. We trust you will keep this subject before the people.

Here in old Bradley a deeper interest is being awakened on this very important subject than ever before. Our County Court is composed of men who are ready to de all they can toward this grand moveto do all they can toward this grand move- eritics. to do all they can toward this grand movement. Last week while in session, they levied a tax of two mills on the dollar, and 50 cents additional upon the poll "for schools purposes." Very few of our citisens think this county system a very good one, but here in Bradley, we have concluded that a poor, inefficient system well worked, is better than a good one badly worked. So we are going to work in earnest. We already have a public free school in the city of Cleveland that has been in operation for three years, which has been receiving aid from the Peabody Fund. At Chatata there is a public school that has Chatata there is a public school that has been successfully carried on for two years.

We hope that many counties will work tem of public schools, and then both ask and welcome the immigrant; for, until then, we may ask in vain. Let the cry be everywhere through the State, more school -free school! More anon. R. D.

Only a few weeks ago I was exhibiting in East Skowhegan, in a bildin' which had forme ly bin ockepied by a pugylist—one of them fellers which hits from the shoulders and teeches the manly art of self-defens. And he cum and said he was goin' in free, in consekens of previ'sly okepyin' sed b'ldn' with a large yaller dog. He sed, Oh, yes.' I sed, 'Oh, no.' He sed, you want to be ground to powder?' I sed, 'Yes, I do, if there is a powder grindest handy,' when he struck me a disg stin' blow in my left eye, which caused that concern to at once close for repairs; but he didn't hurt me any more. I went for him energet'cally. His parents lived near by, and I will simply state that fifteen minutes after I'd gone for him his mother, seein' the prostrate form of her son approachin' the house onto a shutter carri'd by four men, run out doors, keerfully looked him over, and sed, 'My son, you've bin foolin' round a thrashin' masheen. You went in at the end where they put the grain in, come out with the straw, and then got up in the thingumajig and let the hosses trod on you, didn't you my son?' You can imagine by this what a disagreeable person I am when I'm angry."
